## Join The Mother Club!

The UK MG Car Club has long had strong connections with affiliated MG clubs throughout the world. Members of these affiliated clubs have always been free to join the UK club if they wished, and many have done so. Many others have not, probably because they did not want to pay two subscriptions just for a English magazine they did not read.

The UK club has always offered membership to non-UK owners at UK rates, even though mailing costs are considerably higher than for UK members, and this has reached the point where we have had no choice but to substantially increase subscription rates for non-UK members.

We are aware that this may discourage owners from joining the UK club and have given a lot of thought to this. We recognize that the facilities available to UK members are not so easy to provide for those outside the UK. Mostly, these facilities are provided by your local MG club. At the same time, many of you wish to maintain contact with us, especially with the Registers, but can only do so by joining the UK club.

To address this, we last year introduced a new form of membership for those wishing to join the UK club **who were also members of local affiliated clubs**. The offer is that affiliated members can join the UK Club at 50% of the normal UK subscription (currently £60, so 50% is £30), but will not receive the magazine as hard copy, but can read it online, i.e. "digitally". For those who wish to pay in Euros the paper magazine will cost p.a. €98 and Digital membership €35.

This offer is ONLY available to members both of clubs affiliated to the UK MG Car Club and who are happy to have "digital" membership. Those who want to join the UK club, but not their local club, can only join the UK at the new rates just announced, i.e. £50p.a. for digital membership, or £85p.a. if they wish to receive the UK magazine mailed to them.

This offer represents a substantial saving, therefore, and recognizes that the facilities available to you from the UK club are limited, but at the same time grants you full membership, so that you can enjoy receiving our support, for example, from the Registers for the MG models you own.

If you wish to take up this offer, please apply for membership by providing details of your membership of your local club, which we will be confirming with them.

*Safety fast!*

If you are not a member of a local MG club that is affiliated with the UK club, or you are a member but wish to continue to receive the UK magazine *Safety Fast!* each month, do not apply by this means, but join or renew membership through the UK website <https://www.mgcc.co.uk/membership/>. Due to fast rising shipping costs we are unable to offer the paper version of *Safety Fast!* at a discount.

Please contact us if you are unclear:
